PLANNING DECISION NOTICE

APPLICANT:	Mr Morris Hankinson
DEVELOPMENT TYPE:	Minor Dwellings
APPLICATION REFERENCE:	23/01492/FULL
PROPOSAL:	Change of use of barn into a 4 no. bedroom residential dwelling with amenity curtilage, parking and landscaping details
ADDRESS:	Williams Farm, Rye Road, Sandhurst, Cranbrook, Kent, TN18 5HP

The Council hereby **GRANTS** permission/consent for the proposal referred to above subject to the following Condition(s):

- (1) The development hereby permitted shall be begun before the expiration of 3 years from the date of this decision.

Reason: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- (2) The development hereby permitted shall be carried out in accordance with the following approved plans:

Building 2 - Proposed plans and elevations - Drg no. 1979 D06 Rev 1
Proposed site plan - Drg no. 1979 D08 Rev 3
Proposed site plan with Ecology and Drainage Details - Drg no. 1979 D10 Rev 1
Preliminary Ecological Appraisal - dated 07.07.22 Ref No. 2022/05/14

Reason: To clarify which plans have been approved.

- (3) The development shall be carried out in accordance with the details of external materials specified in the application which shall not be varied without the prior written permission of the Local Planning Authority.

Reason: In the interests of visual amenity.

- (4) The area shown on the approved drawings as vehicle parking space shall be provided, surfaced and drained before the first residential occupation of the development, and shall be retained for the use of the occupiers of, and visitors to, the development. No permanent development, whether or not permitted by the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order), shall be carried out on that area of land so shown or in such a position as to preclude vehicular access to this reserved parking space.

Reason: Development without provision of adequate accommodation for the parking of vehicles is likely to lead to parking inconvenient to other road users.

- (5) All hard and soft landscaping works shall be carried out in accordance with the approved details. The works shall be carried out within the first planting season following substantial completion of the dwelling, and any trees or plants whether new or retained which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason: In the interests of visual amenity.

- (6) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking or re-enacting that Order with or without modification), no development shall be carried out within Classes A, B, C, D, E, F, G and H of Part 1 and Class A of Part 2 of Schedule 2 of that Order (or any Order revoking and re-enacting that Order).

Reason: In the interests of protecting the character and amenities of the locality.

- (7) No external lighting shall be installed until details have been submitted to, and approved in writing, by the Local Planning Authority prior to the first residential occupation of the development hereby approved. The details shall include a layout plan with beam orientation and a schedule of light equipment proposed (luminaire type; mounting height; aiming angles and luminaire profiles). Any external lighting installed on the building shall adhere to the advice contained within the Bat Conservation Trust Bats and Lighting (2009) document.

The approved scheme shall be installed, maintained and operated in accordance with the approved details unless the Local Planning Authority gives its written consent to any variation.

Reason: To protect the countryside from harmful light pollution.

- (8) The recommendation and mitigation measures outlined in the Preliminary Ecological Appraisal shall be strictly adhered to during the construction phase of the development hereby approved.

Reason: In the interests of biodiversity.

- (9) The biodiversity enhancement measures outlined on the approved Proposed site plan with Ecology and Drainage Details - Drg no. 1979 D10 Rev 1 shall be implemented prior to first occupation of the dwelling and shall be retained in perpetuity.

Reason: To enhance biodiversity.

Informative(s):

- (1) Once work begins on site please apply for Street Naming & Numbering at <http://www.tunbridgewells.gov.uk/residents/planning/street-naming-and-numbering>. Applying early to officially register new addresses will prevent delays with Council, utility, postal and emergency services.

The Council's approach to this application:

In accordance with paragraph 38 of the National Planning Policy Framework (NPPF), the Council takes a positive and proactive approach to development proposals focused on solutions. We work with applicants/agents in a positive and proactive manner by:

- Offering pre-application advice.
- Where possible, suggesting solutions to secure a successful outcome.
- As appropriate, updating applicants/agents of any issues that may arise in the processing of their application.

In this instance:

- The application was acceptable as submitted and no further assistance was required.
- The application was approved without delay.

Carlos Hone
Head of Planning
Tunbridge Wells Borough Council

IMPORTANT: YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES

NOTIFICATION TO APPLICANT FOLLOWING REFUSAL OF CONSENT OR GRANT OF CONSENT SUBJECT TO CONDITIONS

Appeals to the Secretary of State

If you are aggrieved by the decision of your local planning authority (LPA) to refuse permission for the proposed development, or to grant it subject to Conditions, then you can appeal to the Secretary of State (SoS) under the Town and Country Planning Act 1990, the Planning (Listed Buildings and Conservation Areas) Act 1990 or Control of Advertisements Regulations 1989.

Please see “Development Type” on page 1 of the decision notice to identify which type of appeal is relevant for the following:

- If this is a decision to refuse planning permission for a Householder application or a Minor Commercial application and you want to appeal the decision, or any of the conditions imposed, then you must do so within 12 weeks of the date of this notice.
- In all other cases, you will need to submit your appeal against the decision, or any of the conditions imposed, within 6 months of the date of this notice.

For applications relating to Enforcement Notices:

- If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice and if you want to appeal against the decision on your application, then you must do so within 28 days of the date of this notice.
- If an enforcement notice is subsequently served and relates to the same or substantially the same land and development and if you want to appeal against the decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months [12 weeks in the case of a householder or minor commercial application decision] of the date of this notice, whichever period expires earlier.

Appeals must be made to the Planning Inspectorate and further details can be found at <https://www.planningportal.co.uk/info/200207/appeals>.

The SoS can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The SoS need not consider an appeal if it seems to the SoS that the LPA could not have granted advertisement consent for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

SGN Advisory note

There are a number of risks created by built over gas mains and services; these are:

1. Pipework loading – pipes are at risk from loads applied by the new structure and are more susceptible to interference damage.
2. Gas entry into buildings – pipework proximity increases risk of gas entry in buildings.
3. Leaks arising from previous external pipework able to track directly into main building from unsealed entry.
4. Occupier safety – lack or no fire resistance of pipework, fittings, or meter installation.
5. Means of escape could be impeded by an enclosed meter.

Please note therefore, if you plan to dig, or carry out building work to a property, site, or public highway within our gas network, you must:

1. Check your proposals against the information held at <https://www.linerearchbeforeudig.co.uk/> to assess any risk associated with your development **and**
2. Contact our Plant Protection team to let them know. Plant location enquiries must be made via email, but you can phone us with general plant protection queries. See our contact details below:

Phone 0800 912 1722 / Email plantlocation@sgn.co.uk

In the event of an overbuild on our gas network, the pipework must be altered, you may be temporarily disconnected, and your insurance may be invalidated.

Further information on safe digging practices can be found here:

<https://www.sgn.co.uk/damage-prevention>

Our free Damage Prevention e-Learning only takes 10-15 minutes to complete and highlights the importance of working safely near gas pipelines, giving clear guidance on what to do and who to contact before starting any work
